

Midcoast Aviation-Savannah

- Midcoast Savannah is a full-service aviation center offering aircraft maintenance, avionics installation and repair, interior modifications and completions, and exterior aircraft painting.
- With a state-of-the-art 220,000-sq-ft service center, Midcoast Savannah can easily accommodate all types of large cabin aircraft. The company is an FAA-approved repair station for Bombardier Challenger and Global Express aircraft, all models of Gulfstream II-Vs, and most models of Falcon and Hawker aircraft.
- Midcoast Savannah has significant maintenance expertise and provides complete airframe and engine maintenance for most models of corporate turbine aircraft.
- Midcoast Savannah has seen substantial growth in its avionics capabilities and holds several STCs for a variety of avionics and equipment installations on Gulfstream and Bombardier aircraft.
- Midcoast Savannah's highly experienced technicians can install, repair and certify the latest equipment from all the major manufacturers on a variety of aircraft types. An on-site designated engineering representative (DER) ensures compliance with FAA requirements.
- SMidcoast Savannah specializes in interior completions, refurbishment and modifications of all models of large cabin aircraft. The company's facility includes an in-house design center and on-site cabinet and interior fabrication shops.
- Savannah Air Center is an authorized completion center for the Bombardier Global 5000 and Global Express XRS business jets.
- With the finest corporate aircraft paint facility in the industry, Savannah Air Center offers the best possible environment for successful painting of large cabin aircraft.
- All paint work is completed to individual customer specifications while ensuring that the manufacturers' recommendations for the exterior refinishing of that type aircraft are followed in full.
- Located at the Savannah/Hilton Head (Georgia) International Airport, Midcoast Savannah employs more than 400 aviation professionals.
